Walk Alongside
Our Ancestors

The sublime and ceaseless pursuit of science has shaped our modern world. It has brought meaning, hope and empowered us all. Global Science Festival of Kerala (GSFK) is a celebration of this quest for knowledge and brings together individuals from diverse backgrounds to explore the beauty of science.

Scheduled to start on January 15, 2024, at the Bio 360 Life Sciences Park at Thonnakkal, Thiruvananthapuram, GSFK is a curated experience that tells the story of who you are. Built from the ground up through an interdisciplinary approach, the festival explores your origins and future through an exciting world of discovery. On behalf of the government of Kerala and the organising team of GSFK, I wholeheartedly welcome you to a world of possibilities for the science and art enthusiast in you.

Citizen Science

GSFK presents the public with a unique challenge: interact with creative research issues, conduct experiments, and gather data to validate them. Engage with scientific thinking outside the boundaries of conventional research.
